Whats New

[Research & Development](#)

Athgo *International* launched an applied R&D program to enhance its mission in engaging young people worldwide in constructive entrepreneurship. The research areas include the constructive approach to enterprise development and defining the capabilities required for a successful initiation and development of the Organization's facilitated enterprise concepts.

Prescription for Success

Athgo *International*'s unique direction to success is through Four Pillars – Intellectual, Inner, Financial, and Networking. The four pillars are fundamental to creating a sustainable and

constructive business.
